

DSDM ATERN

Atern is the latest version of DSDM, the proven Agile Project Delivery Framework. Atern works for projects of all types and helps to deliver results quickly and effectively. It concentrates on strategic goals and incremental delivery of real business benefits while keeping control of cost, risk and quality. Business Agility is enabled through self-directed, empowered teams working together in a supportive and collaborative manner. Atern can be applied to a wide range of projects from small developments all the way up to full scale business process change.

DSDM Atern is free to view online at www.dsdm.org and free to use within your own organisation.

DSDM ATERN OVERVIEW

This seminar is intended to provide an overview for management of the benefits, risks and other implications of adopting DSDM Atern to facilitate the on time and in budget delivery of projects of all types. It is intended to give delegates the facts about the Atern Project Delivery Framework and an opportunity to explore the issues with using and implementing the approach.

Seminar Objectives

This seminar can be adapted for large and small groups, and different timeframes - typically between 1 and 3 hours, depending upon the requirements of the customer.

It will enable delegates to:

- Understand the concepts and benefits of Agile development
- Understand the philosophy, approach and principles of DSDM Atern
- Understand the approach to prioritisation and planning
- Understand the importance of negotiation and collaboration in DSDM Atern projects
- Appreciate the organisational, training and cultural aspects of implementing DSDM Atern

Who Should Attend

Those who are likely to become involved in managing and sponsoring Agile projects, including:

- Project Sponsors
- Business Managers
- Business Analysts
- Business and Technical Solution Architects
- Quality Assurance and Quality Control Managers

Course Duration: 1-3 hours

Course Code: DSATO
