

PRINCE2®

PRINCE2 is internationally recognised as the leading 'best practice' project management approach within government and the private sector; leading organisations have already introduced PRINCE2 world-wide. It addresses the needs of management by providing the governance structure for effective project management and control.

The focus is on the key principles, processes, activities and techniques needed for successful project management, providing those responsible for planning and managing projects with a structured and practical approach for projects of all sizes and types.

PRINCE2® is a Registered Trade Mark of the Office of Government Commerce in the United Kingdom and other countries; The PRINCE2 Swirl logo™ is a Trade Mark of the Office of Government Commerce.

PRINCE2® PROJECT BOARD

The senior management role of Directing a Project is an essential part of a successful PRINCE2 project. However, often little knowledge or appreciation of the governance aspects is passed on to those with overall responsibility. This executive-level briefing addresses the role of the Project Board and explores the specific contribution each member needs to make to a PRINCE2 project. The course is normally delivered in-house and can be tailored to the needs of the organisation.
