

Port Allow List

Client Port/Protocol and Allow list Information

These outbound protocols and ports are necessary for our clients to access the full spectrum of ProctorU services and components.

- ✿ This includes our Live/Classic and Live+ products.
- ✿ For more technical users and security administrators, these requests will be originating from the client computer accessing ProctorU systems so the Source will be your internal network/LAN. The Destination will be a ProctorU system or a component. Since these systems are cloud-based and their IP may change, ProctorU strongly recommends opening these ports to all Destinations.

Port	Protocol	Reason
80	TCP	Unsecured web/HTTP traffic
443	TCP	Secured web/HTTPS traffic
843	TCP	Video
1935	TCP	Streaming video component
3478	TCP/UDP	Streaming video component
5671	TCP	Streaming video component
49152-65535	UDP	ProctorU browser plugin

Port Allow List

Client Port/Protocol and Allow list Information

Allow listing and Firewall Configuration for LogMeIn Products LogMeIn Rescue

Domains to be allowed

- *.LogMeIn123.com
