

DSDM ATERN & PRINCE2®

Many organisations in both public and private sectors have adopted PRINCE2 as their project management approach, but need a responsive approach to project delivery. This is where DSDM Atern can add great value and a combination of these two well-tried approaches brings the benefits of both.

Using DSDM Atern with PRINCE2 is ideal for those who need to work in a controlled PRINCE2 environment but wish to inject agility and gain the benefits of early delivery of real business benefit which is the focus of DSDM Atern - a well-established agile project delivery framework.

PRINCE2® is a Registered Trade Mark of the Office of Government Commerce in the United Kingdom and other countries; The PRINCE2 Swirl logo™ is a Trade Mark of the Office of Government Commerce.

USING DSDM ATERN WITH PRINCE2®

This course provides a practical exploration of using both of these well-defined, tried-and-tested approaches together. It considers the benefits and risks of doing so and provides a practical checklist for making this work. It gives an overview of DSDM Atern and PRINCE2, their interactions and individual contributions / strengths. Each delegate will receive the PRINCE2 and DSDM Atern pocket books, plus course notes and slides to accompany the theory and practice.

Course Objectives

This course will enable delegates to:

- Understand the key elements of PRINCE2
- Understand the key elements of DSDM Atern
- Identify the techniques used in PRINCE2 and DSDM Atern
- Describe the planning approaches of PRINCE2 and DSDM Atern
- Explore the risks and benefits of combining the two approaches
- Identify the roles and techniques to use when combining PRINCE2 and DSDM Atern
- Understand the approach to integrating DSDM Atern and PRINCE2 on a project
